PROJECTS AND EXPERIENCE

• **Advanced YouTube Downloader :**

With this script you can search on youtube and get the results stored in a spreadsheet with all the details about the video, then you just have to select the serial numbers to download videos. Here is the git repository of the same. <https://github.com/DefCon-007/Project-Youtube>

• **WhatsApp ChatBot :**

It is a unique way to get latest tweets of the subscribed handle on WhatsApp. It was tough task since WhatsApp has no native api's for the same but I managed to get a work around for the same.Here's the Git repository link. <https://github.com/DefCon-007/Twitter-bot>
